DETAILED ACTION

Claims 1-26 are pending. The Amendment filed February 19, 2002, amended claims 1, 3, 9-13, and 21-22, and added claim 26.

Response to Applicant's Arguments/Amendment

The Applicant's arguments filed February 19, 2002 (Paper No. 6) to the rejection of claims 1-25 made by the Examiner under 35 USC 102 (e) over Ferguson et al., 103(a) over Ferguson et al. as the primary reference, and 112, have been fully considered and deemed not persuasive.

The Applicant's amendment to the claims filed February 19, 2002 (Paper No. 6) is sufficient to over the rejections under 35 USC 102(e) over Cheung, 103(a) over Cheung as the primary reference, and some 112 second paragraph rejections in the Previous Office Action.

112 Rejection Maintained

The rejection of claims 9-13 and 25 under 35 U.S.C. 112, 1st paragraph, is MAINTAINED for the reasons set forth in the Office Action mailed August 29, 2001, Paper No. 6, and those found below.

Applicant argues "Accompanying this Amendment are the following articles showing common knowledge in the art of "petuli oil". This argument is not persuasive, as no accompanying articles have been filed with Applicant's Amendment.

112 Rejection Maintained

The rejection of claims 1, 21 and newly added claim 26 under 35 U.S.C. 112, 2nd paragraph, is MAINTAINED for the reasons set forth in the Office Action mailed August 29, 2001, Paper No. 6, and those found below.

Application/Control Number: 09/659,502

Art Unit: 1617

- i) The rejection of claims 1 and 21 and newly added claim 26 over the phrase "ambient environment" is maintained. The Examiner respectfully notes that there is no definition of this phrase on page 21, lines 13-18 of the specification.
- ii) The phrase "to effect aromatherapy on persons or animals" in claim 1 (line 8) is still vague and indefinite. It is still not clear how aromatherapy is effected on persons or animals.

102 Rejection Maintained

The rejection of claims 1-21 under 35 U.S.C. 102(e) as being unpatentable over Ferguson et al. (6,045,813) is MAINTAINED for the reasons set forth in the Office Action mailed August 29, 2001, Paper No. 4, and those found below.

Applicant argues "There is no direct application of the liquid composition to the surface.

The present amendment of "directly" applying the liquid is sufficient to exclude the compositions of Ferguson et al.". This argument is not persuasive. Col. 12, lines 44-59 of Ferguson et al. disclose a method of treating a surface, wherein a composition comprising a carrier liquid and beads is dispensed through a pump onto a surface, and the beads are fractured as they are dispensed or as they are used on the surface, spilling their contents. Thus, the essential oils in the beads come in direct contact with the surface.

103 Rejection Maintained

The rejection of claims 1-21 and newly added claim 22 under 35 U.S.C. 103(a) as being unpatentable over Ferguson et al. in view of Bonett (6,127,330) in further view of Orson (5,081,104) and Bajgrowicz (6,239,314) is MAINTAINED for the reasons set forth in the Office Action mailed August 29, 2001, Paper No. 4, and those found below.

Application/Control Number: 09/659,502

Art Unit: 1617

Applicant argues "Bonett teaches a single composition that may be separated into two components, and then the components mixed to form a single active composition. This is not a kit with distinct and "separate" active solutions that are complete in themselves". This argument is not persuasive. Bonett is relied upon for what he teaches those of ordinary skill in the art. Bonett teaches that kits comprising multiple compartments for different cleaning solutions are known in the art. Hence, it would be within the skill of one in the art to teach kits comprising multiple compartments of different cleaning solutions.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

i) The phrase "household function selected from the group consisting of surface cleaning.

. . and iron aids" in claims 1 (lines 3-5) and 26 (lines 2-4) is vague and indefinite, as it is confusing. How are moisturizing, dish soaps, and ironing liquids household functions? How is cleansing different from surface cleaning, surface shining, degreasing and foreign matter removal? Is Applicant claiming a range within a range?

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
